"...This training is essential: I could predict responses of Americans to my proposals and I responded adequately to their requests.

This year, in Belarus, I had some negotiations with my European collaborators. And I feel that your cross-cultural training was very useful in this case, which is not even directly connected with the US life..." *Eugene Naumovich*

"Natasha at People Going Global has an in depth understanding of the needs of people being posted to foreign countries. This knowledge allows her to tailor her experience to the clients particular and often specific circumstances.

I found this of great benefit when I visited India for the first time last year. The information I received prepared me for the social and cultural differences between the western and Indian cultures. This in turn gave me a greater level of confidence in dealing with the business issues."

Philip M Lelliott, Divisional Chief Executive, Vehicle Components - Worldwide
